

What is the Honeywell Navitas suite?

"The Honeywell NAVITAS suite helps create more resilient, agile and efficient airports," said Philipose Jacob, general manager, Global Airports, Honeywell Building Technologies.

How big is the railway network in Romania?

As of 2014, the railway network of Romania consists of 10,777 km (6,697 mi), of which 4,029 km (2,504 mi) (37.4%) are electrified. The total track length is 22,247 km (13,824 mi), of which 8,585 km (5,334 mi) (38.5%) are electrified. The CIA World Factbook lists Romania with the 23rd largest railway network in the world.

Are Romanian railway tracks leased to private companies?

However, after the reorganization of CFR in 2011, around 15% of Romanian railway tracks have been leased to private companies. These are known as non-interoperable tracks (linii neinteroperabile in Romanian).

Does Honeywell Navitas work at Incheon International Airport?

South Korea's Incheon International Airport, one of the highest-trafficked hub airports in Asia, commenced an end-to-end Honeywell NAVITAS Platform as an Integrated System which has helped the airport significantly enhance air traffic management efficiency.

Which Romanian cities have a tram system?

A fast-growing number of Romania's major cities have modern tram or light rail networks, including Bucharest, Timisoara, Cluj-Napoca and Oradea. Recently the tram has seen a very big revival with many experiments such as ground level power supply in Oradea.

What is the largest port in Romania?

The largest port is that of Constanta, which is the second largest port at the Black Sea. With over 13 million passengers Bucharest Airport is a major international airport and European transportation hub. Air travel is used for greater distances within Romania but faces competition from the state-owned CFR's rail network.
