

What is the best solar power generator?

As for solar charging, the Anker 757 supports up to 300 watts of input, putting it in the middle range compared to similarly-sized solar-capable generators on the market. If you're looking for an ultra-compact solar power generator, we recommend Bluetti's Portable Power Station EB3A.

Which solar generator should I buy?

With its durable enclosure and ergonomic design, the GB2000 is our top choice if you're looking to take your solar generator outdoors. The 2,106-watt lithium-ion battery packs plenty of power in a relatively compact package, and the "parallel ports" make it possible to connect two units together, effectively doubling the power output.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.
