

YADA has set up a technology research and development center, with a technical design team of more than 100 people, and establish an industry-university-research mechanism in cooperation with shipbuilding institutes, aerospace institutes, Zhejiang University, Jiangsu University of Science and Technology and other universities and research ...

YADA was established in 1993, after 30 years of continuous cultivation and exploration, gradually improve the manufacturing capacity of the whole industry chain from primary manufacturing to quaternary manufacturing, and become a leader in integrated solutions for green marine pipeline equipment, achieving mutual benefits for all levels.

YADA has obtained "continuous vacuum insulation double-wall pipe production and installation process" and other dozens of double-wall pipe related patents, posses complete independent intellectual property rights.

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing customers with the full life cycle services of basic design, detailed design, analysis & simulation, production design, manufacturing, installation and ...

YADA Green Energy Solutions Co.,Ltd was founded in 1993, at present it has 150,000 square meters workshop and 12 production lines for welded pipes, seamless pipes, pipe fittings, flanges, prefabricated pipes, heating coils, double-wall pipes, pressure vessels, supports, pump towers and skids, with an annual capacity of 60,000 tons.Yada has ...

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing ...

With the vision of becoming the leader of green marine pipeline equipment integration solutions, in order to maximize customer benefits, YADA is committed to developing upmarket equipment manufacture industry, focusing on providing integrated solutions for advanced ships, marine engineering and clean energy, as well as cost-effective modular ...

YADA was established in 1993, after 30 years of continuous cultivation and exploration, gradually improve the manufacturing capacity of the whole industry chain from primary manufacturing to ...

The Leader of Green Ship Pipeline Equipment Integration Solutions. Yada Green Energy Solutions Co., Ltd.

was established in 1993, provides full lifecycle services to customers from principle design, Stress analysis, detail design, components manufacturing, spool prefabrication, skids integration, installation, safety monitoring, operation and ...

Focusing on stainless steel pipeline system and integrated solutions, covers the whole process from raw material to detail design, manufacturing, installation and maintenance, YADA provides pipeline system related comprehensive services to global customers in marine engineering, energy and chemical industry.

YADA has obtained "continuous vacuum insulation double-wall pipe production and installation process" and other dozens of double-wall pipe related patents, possesses complete independent ...

YADA skid production line has an annual output of 350 sets of skids providing one-stop solutions from principle design, detailed design, production design, component manufacturing, pipeline prefabrication and skid integration to installation and commissioning, operation and ...
