

What are Eurobat and Kellen?

Eurobat and its service provider Kellen are a trade body and its service provider that were accused by EU antitrust regulators on Thursday for breaching antitrust laws by operating a cartel to fix battery prices.

What is eurobat & why is it important?

EUROBAT will emphasise the critical role of batteries in achieving the EU's decarbonisation goals and advancing the objectives of the Green Deal. Additionally, it will be presented the key policy asks and recommendations for the next five years. Pau Sanchis, Senior Policy Manager, said:

What is the Eurobat Premium System?

The European Commission accused five starter batteries manufacturers (Banner, Clarios, Exide, Elettra and Rombat) of creating, publishing and agreeing to use new indices in their price negotiations with car producers, which is known as the 'Eurobat Premium System'. The Commission made this statement in a press release.

Will battery chemistries help Europe meet climate and energy sustainability goals?

July 1, 2022: A new roadmap unveiled by EUROBAT on June 24 sets out the case for all battery chemistries to be deployed to help Europe meet its climate and energy sustainability goals.

A group of automotive starter battery makers, trade body Eurobat and its service provider Kellen were accused by EU antitrust regulators on Thursday for breaching antitrust laws by operating a...

The association of European automotive and industrial battery manufacturers says a raw materials czar -- officially the "commissioner for strategic autonomy" -- should be appointed as a key member of the next European Commission to be ...

This updated roadmap serves as a strategic guide for policy makers and stakeholders, providing a detailed overview of the current state and future directions of battery technologies, with concluding recommendations with the aim to foster industry resilience, competitiveness and sustainability in Europe's Battery Technology sectors.

EUROBAT will emphasise the critical role of batteries in achieving the EU's decarbonisation goals and advancing the objectives of the Green Deal. Additionally, it will be presented the key policy asks and recommendations for the next five years.

EUROBAT will emphasise the critical role of batteries in achieving the EU's decarbonisation goals and advancing the objectives of the Green Deal. Additionally, it will be presented the key policy asks and ...

? EUROBAT Position Paper on substances in battery labels ? EUROBAT's latest paper provides recommendations for policy-makers on harmonised specifications for battery levels, focusing on...
