

What is a SAFT energy storage system?

Intensium®; Max megawatt energy storage system for renewables Saft's megawatt scale Li-ion containerized energy storage systems for grids and renewable energy sources provide invaluable flexibility.

What are Saft's lithium-ion energy storage systems batteries used for?

Saft's lithium-ion energy storage systems batteries are used for: Large renewable integration(PV and wind farm) installations Ancillary services and other grid support functions Microgrids and end-user energy optimization schemes Click here to see our infographics.

What are Saft products?

Saft developments comprise two major product lines: Intensium®; Shift for 2 to 8 hours energy shifting applications, and Intensium®; Max for 1 to 2 hour grid services. You can configure your future Intensium Shift storage system by using our I-Shift configurator. Renewables integration

Saft works in close partnership with customers, providing 360° support from project inception and commissioning to end-of-life, dismantling and recycling of containers.

Saft energy storage system will smooth grid integration for Côte d'Ivoire's first solar plant . 09/05/2022. TotalEnergies commissions a 25 MWh energy storage site with Saft battery ...

With up to 3 MW of power or 1.2 MWh storage capacity in a single 20-foot container, Intensium®; Max provides customized energy storage from 1 to 50 MW and cycle durations from minutes to several hours.

Lithium-ion Battery Energy Storage Systems. We assist customers from inception to implementation and operation of their energy storage system in complex multi-functional application schemes.

Saft Intensium®; Max energy storage system (ESS) is helping KIUC to maintain grid stability as the penetration of solar PV generation increases. KIUC (Kauai Island Utility Cooperative), is ...

Almost exactly a year since the Nordic region's "largest" battery energy storage system to date was announced, Saft has said that the next system to take that crown will be a project the company will work on in Finland.

Saft's energy storage package is increasing hydropower usage for an Alaskan microgrid Etude de cas client T&#233;l&#233;charger (Anglais) Energy storage optimizes wind power for remote Arctic mine ...

Flexible Energy Storage Systems. Delivering business success in a fast-changing market. In accordance with the provisions of the personal data protection regulation, Saft Groupe SA as ...

The Intensium®; Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, renewables and industries.

The Intensium®; Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, renewables and ...

In accordance with the provisions of the personal data protection regulation, Saft Groupe SAS as data controller will process your data for the purposes of providing the services and for its legitimate interest.

Neoen chooses Saft to guarantee solar energy storage performance in Southern France. 28/01/2022. Saft's highlights 2021 - Batteries to energize the world. 22/12/2021. TotalEnergies launches the largest electricity storage site in ...

Saft has been manufacturing batteries for more than a century and is a pioneer in lithium-ion technology with over 10 years of field experience in grid-connected energy storage systems. Customers turn to us for advanced, high-end ESS solutions for demanding applications.

Evolion®; modules are ideally suited for renewable energy storage. The Saft Evolion®; 48 V dc, 77 Ah, 3.9 kWh Li-ion battery modules selected for this application are designed to meet the ...

The Saft battery division of French energy and petroleum multinational TotalEnergies will supply 70 of its containerized Intensium Shift+ battery energy storage systems (BESS) to form a 100 MW/200 MWh project on New Zealand's North Island.

SEV, the Faroe Islands utility, has commissioned Europe's first fully commercial Li-ion energy storage system (ESS) operating in combination with a wind farm. Saft's containerized solution ...
