

We focus on three market segments: lithium batteries, photovoltaic and energy storage. We supply new energy products, for instance, lithium, cobalt, nickel, silicon wafers, battery cells, solar modules, and energy storage system. We connect natural resources mines, upstream smelters, midstream processing plants, and downstream manufacturers.

Xiamen Xiangyu New Energy Co., Ltd. Focus on new energy material and raw material of nickel, cobalt, lithium, connects the mainstream source miners in the industry, upstream smelters, midstream processing plants, downstream battery plants and terminal makers, creates a full closed-loop supply chain, provides logistics, capital, information and ...

The company is committed to building a new energy supply chain service provider with the integration of “logistics flow, commercial flow, capital flow and information flow”, providing the whole industry chain services from upstream minerals to downstream end products.

Xiangyu New Energy Focuses On Two New Energy Industries, Lithium Industry Chain And Photovoltaic Industry Chain, Linking The Industry, Domestic And Overseas Mainstream Miners, Smelters, Midstream Processing Plants And Downstream End Customers To Create A Full Supply Chain Integrated Service Solution, And Is Committed To Become An International ...
