

Dutch solar park developer Solarfields premiered its Zonnepark Bontepolder facility in early 2023 with nearly 32,000 solar panels, accompanied by Alfen's battery storage technology to capture and distribute the carbon-free power ...

Drawing on over five years of expertise in mobile battery storage backed by more than 85 years of innovation in the electricity grid, Alfen has developed a solution that meets the growing demand for temporary clean power supply across a wide range of applications.

I joined Alfen in 2016 and have responsibility for ensuring energy storage systems are commercially applicable and developing the market. We can now build a battery storage solution in 6 months instead of 18, while still ...

This new electricity storage facility will use Alfen's latest battery technology. The batteries are delivered in smaller and more flexible outdoor units instead of the traditional large marine containers.

As it has been a whole decade since we began integrating energy storage solutions, we thought we would take the opportunity to champion our success by sharing with you 10 ways in which Alfen's TheBattery is currently providing value to our customers.

Dutch solar park developer Solarfields premiered its Zonnepark Bontepolder facility in early 2023 with nearly 32,000 solar panels, accompanied by Alfen's battery storage technology to capture and distribute the carbon-free power they generate.

Drawing on over five years of expertise in mobile battery storage backed by more than 85 years of innovation in the electricity grid, Alfen has developed a solution that meets the growing demand for temporary clean power supply across a ...

Alfen has been contracted to supply a battery energy storage system (BESS) in Sweden for electricity network company Ellevio, which will be the Scandinavian nation's biggest project of its type to date.

I joined Alfen in 2016 and have responsibility for ensuring energy storage systems are commercially applicable and developing the market. We can now build a battery storage solution in 6 months instead of 18, while still offering customisation, and have delivered both mobile and large-scale solutions in multiple countries and continents.
