

San Marino has installed over 4,200 private solar systems in the past 15 years, making it a global leader in solar energy production. These solar systems generate 5% of the country's energy, boosting sustainability and energy independence.

From design, estimating, installation, powering up, billing and monetizing, we are a true one stop shop. Each of our executive team members have over 13+ years of solar and electrical experience both in Private and Public works construction.
