

Kalyon PV, which has made it a mission to spread technologies that are friendly to people, nature and the environment, adds value to life with its international R& D studies and innovative technologies, and delivers solar energy technology that focuses on quality and efficiency to every corner of Turkey and the world.

Kalyon PV, which has adopted making the human, nature and environment friendly technologies widespread as its mission, adds value to life with its international R& D studies and innovative technologies, besides delivering solar energy technology that focuses on quality and efficiency to every corner of Turkey and the world.

To make a considerable contribution to the domestic and national energy move of Turkey with an investment of \$400 million, the Kalyon Solar Technologies Factory will go into production for Konya Karapinar Solar Power Plant with an installed capacity of 1000 MW in the first phase.

San Marino Solar Electric, Inc. is a full-service electrical, solar, and generator company servicing Pasadena, San Marino, Glendale, La Canada, Sierra Madre, Monrovia, Altadena, Arcadia, Burbank, La Crescenta, Lake Arrowhead, Big Bear, Crestline, and ...

Our high-efficiency solar panels, developed with mastery over all quality processes, are produced in different sizes such as 144 and 108 half-cell configurations, as well as different types like bifacial and monofacial at our Panel Factory.
