This is where SATEC offers a full monitoring solution, enabling the optimization of industrial processes, HVAC spending in commercial and public facilities and many other consumption channels, common to all facilities. A. Industrial. ...

The SATEC PMU is a unique product. It is implemented as an add-on card for the PM180, together with other functionalities, such as power quality monitoring and fault recording, making it highly cost-effective. It communicates with 3 rd party Phasor Data Concentrators, an important WAMS component in itself, enabling versatility.

SATEC are the energy management experts and have been a proven solutions-oriented global leader in the research, development and manufacturing of energy management systems since 1987. With two decades of rich experience in energy management, SATEC provides total solutions for customer applications worldwide.

Lorem ipsum. Our software packages complete our product line, offering a total solution for your power system. SATEC's on-line service, eXpertpower, collects, archives and analyses energy and power quality data. eXpertpower allows multiple users to view data, create automated billing, produce sophisticated reports and implement energy.

Consult with us. The contemporary business mindset is often based on a practical solution-oriented approach. As a result-driven client, you prefer the greater picture and bottom line over the ins and outs of technically complex systems.

We at SATEC pay special attention to the quality and reliability of our products by a thorough verification of each product and system at every stage of the products' lifetime. SATEC is committed to uncompromising compliance with the highest requirements in the energy field. Our devices comply with the most demanding international standards ...

SATEC is a developer and manufacturer of specialty solutions for power/energy metering (AC and DC) and power quality monitoring. Expertpower is SATEC's partner in offering cloud-based software for energy management, billing, MDM, power quality monitoring, BI, and much more.
