SBS Holdings Inc is a Japanese company that specializes in the development of renewable energy projects in various sectors, including solar. The company was founded in 2006 and has since then been at the forefront of the renewable energy industry in Japan

SB Energy is a subsidiary of SoftBank Group Corp. and one of the leading renewable energy companies in Japan. As of October 2017, it had over 408.5MW of power in operation with 34 plants (equivalent power needed to supply approximately 128,180 households in Japan).

SBS Energy has developed a solution that not only addresses the need for backup power, energy cost savings and resource management but puts the power back in business owners' hands with an easy-to-use integrated dashboard solution. Launch of new energy division.

SBS Energy installed a 80kW PV ground mount array with a Atess 100kW inverter coupled to a 200kWh Freedom Won battery. The ground mount was designed and installed by the SSB team and is part of the turn key solution offered by SBS Energy. The ability to keep the process in house allows the SBS team greater control on deliverables whilst saving ...
