Is there a battery pack database similar to secondlifestorage cell database to tell which pack needs what kind of discharge rate cells? For power tools, vacuums, garden equipment, etc. Most common problem I have is someone asking if I can replace the cells for their battery, but there is no info about pack watt or amp ratings, the cells ...

It's this battery: <https://secondlifestorage/index.php?threads/lg-lgdahd2c1865-cell-specifications.1882/> I can't find it anywhere, is there a suitable replacement? I was thinking of using this one: <https://> Any help is appreciated.

Mar 18, 2017 #12 They all have little pots on the back to adjust the voltage. All after adjusting match the voltage of my multimeter. I haven't noticed and problems with them pulling packs out of balance.

Back in 2017, as the community started to grow, we began speculating how many cells have been recycled and put back into use that would have otherwise ended up in landfills, discarded, or melted down for scrap. This led to the creation of the Cell Counter. Since then, we have tracked over 350...
