How does shinehub pay for solar power?

This payment is made directly from ShineHub and is separate from your electricity provider's solar feed in tariff credit that you get whenever you send any solar power back to the grid. That's usually around \$0.06/kWh, a credit that you get back on your normal electricity bill.

Does shinehub halve power bills?

To ease the financial burden, Shinehub offers a fixed rate solar plan, which it claims can halve household power bills. "They can buy a system outright, they can get a personal loan, or they can use our fixed-rate plan where they just pay for the power that's being generated," explains Alex.

Is shinehub the Airbnb of solar?

Dubbed the Airbnb of solar, Shinehub is an online platform that streamlines the installation process, making solar power easier and more affordable to access. Founders Alex Georgiou and Jin Woo Kim founded the company in 2016 when they spotted a niche in easily accessible solar. Co-founders Alex Georgiou and Jin Woo Kim founded Shinehub in 2016.

Hi has anyone heard of ShineHub which is a community based solar program which buys solar only or solar + battery systems in bulk and then passes on the savings to the group buy scheme. ShineHub is also in partnership with the Australian Solar Council.

Q. Just wondering what you think of ShineHub's current offer of solar panels + battery in exchange for signing a 20 year contract to buy the surplus electricity generated - is it a good deal or not? A. Let me be very

clear. Despite some media reports, this, and similar offers from other companies are not "free" solar and battery systems.
