

What is Senegal's energy policy?

The IEA's Energy Policy Review of Senegal 2023, published today, finds that energy is at the heart of Senegal's 2035 strategy for accelerating sustainable development and economic growth known as the Plan S&#233;n&#233;gal &#201;mergent(PSE), or the Emerging Senegal Plan.

How will Senegal's power sector be strengthened?

Senegal's power sector would be strengthened by continued diversified investment in power, including renewables and natural gas, while phasing out heavy fuel oil. Senegal Energy Outlook - Analysis and findings. An article by the International Energy Agency.

Will Senegal become an oil and gas producer in 2024?

This partnership could mobilise up to EUR 2.5 billion to support Senegal's efforts to achieve universal energy access and strengthen a resilient, secure and sustainable energy system that fosters sustainable development and economic growth. In 2024, Senegal is expected to become an oil and gas producer.

How does Senegal support regional energy cooperation?

Senegal supports regional energy cooperation as a member of the West African Power Pool(WAPP) and is a member of regional organizations to develop hydroelectricity resources on the Senegal (OMVS - Senegal River Basin Development Organization) and Gambia (OMVG - Gambia River Basin Development Organization) rivers.

Is Senegal a good country for energy transitions?

Senegal is a strong advocate for just energy transitions. The country has already met the wind and solar targets it established for 2025 under its most recent Nationally Determined Contribution to the Paris Agreement, and it has joined the Global Methane Pledge to reduce the world's methane emissions 30% from 2020 levels by 2030.

How has Senegal reformed its energy sector?

Since the launch of the Plan S&#233;n&#233;gal &#201;mergent, Senegal has adopted reforms designed to attract foreign investment in its energy sector and boost participation from the private sector, while leveraging significant support from development finance institutions.
