

Signing loan contract for photovoltaic panel installation

What is a solar power purchase agreement (solar PPA)?

With a solar power purchase agreement (solar PPA), you contract with a solar developer that pays for, installs, and maintains a solar system on your property. The system could include ground-mounted, rooftop, or carport solar panels (or any combination thereof), and it could include an energy storage system.

What is a solar photovoltaic (PV) installation?

A solar photovoltaic (PV) installation comes with a proposal and a contract, so if you're thinking about going solar, it's important to understand what you'll be signing.

What should I know before signing a solar energy contract?

Pay special attention to any language that connects you with the installation company, and outlines what you can expect the company to do for you. This guide is designed to provide a clear walkthrough of what you should know before signing a rooftop solar energy contract. What Is a Solar Power Contract?

Should homeowners pay for solar panels upfront?

Homeowners who pay for their panels upfront with cash, or through a solar loan, will see something different than someone who signs a solar lease or solar power purchase agreement (PPA). While solar contracts will differ by provider and project, most of them contain a certain amount of shared verbiage and content.

What is a solar system contract?

A solar system contract is a sort of solar contract that describes a solar power purchase agreement (PPA). A PPA is a contract in which a third-party developer manages and maintains your solar system and sells you the power generated by the system at a fixed rate for a certain period of time. b. Solar Lease Contract

What happens at the end of a solar PPA contract?

At the end of your contract, you have the option to extend the PPA, purchase the solar panels at market value, or cancel and have the solar panels removed. Review your contract to evaluate all purchase options and terms. Ending or acquiring an existing solar PPA contract is known as a solar PPA buyout.
