• Microgrids are one possible solution to the power bottleneck problem that is likely to develop as Singapore scales up its EV population. These are small-scale power systems that operate outside a national grid system and, with the help of energy management systems, could smooth generation and demand across the island.

SunTechnics Energy Systems Pvt. Ltd. is a 100% owned subsidiary of the Conergy Group which is one of the

world"s largest companies dedicated to solar energy. Since its foundation in 1999, Conergy has ...

Conergy is one of the region"s largest downstream solar companies, specializing in the design, development, finance, build and operation of high performance solar systems for businesses and utility-scale power....

SunTechnics is a one-stop solution provider for all remote solar PV energy requirements. The company provides complete end-to-end solutions from conceptualization to completion for renewable energy systems, including evaluation, feasibility study, design, engineering, supply, installation & commission, operation and maintenance of solar PV systems.
