

PHILIPSBURG-Solar energy appears to be the best option for increasing renewable electricity in St. Maarten, according to TNO, which studied the energy transition in Aruba, Curaçao, and St. Maarten.

At Solar Tech Caribbean, we are dedicated to revolutionizing the way you power your life. Our mission is to provide cutting-edge solar solutions, seamless Starlink installations, and convenient EV charging services tailored to meet the unique needs of Sint Maarten/Saint Martin.

Secure your energy future today with Solar Energy Caribbean. Contact us now for a free quote and discover how our solar power systems can keep your home or business powered up, rain or shine. Join the sustainable energy revolution in Sint Maarten and start saving on your utility bills with our advanced solar energy solutions.

Solar Energy Caribbean offers reliable solar power solutions across the Dutch & French Caribbean, including Sint Maarten, Saint Martin, Saint Barthélemy, Saba, and Trinidad & Tobago.

Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades. The scalable partnership model was developed to help the island rapidly reach its key energy goals by deploying an optimized mix of energy solutions. GridMarket is using its remote, AI-driven ...

St. Maarten faces significant challenges in transitioning to 100% renewable electricity due to its limited space, lower wind speeds, and frequent hurricanes. The island's small and hilly terrain makes large-scale solar and wind energy installations difficult, as many potential locations are already used for tourism and housing.

Energynautics and TNO reached similar conclusions regarding the viability of solar photovoltaic (PV) installations as the best renewable energy option for St. Maarten. Both reports strongly advocate for the rapid scaling-up of solar PV projects as a cost-effective and sustainable solution.

As the world grapples with the challenges of climate change, this tropical paradise is harnessing the power of the sun to transform its energy landscape. In this blog post, we will explore the untapped potential of solar energy on the island and how it is playing a pivotal role in shaping a sustainable future.

Solar energy: Lorentz solar pool & well pumps; Residential/Commercial solar systems off grid, hybrid or grid tie systems; From our base in Colebay, we have provided solar services in and around St Maarten and St Martin since 1992, whilst supplying solar parts and ...
