

The Solomon Islands Electricity Authority (Solomon Power) invites sealed Bids from eligible Bidders for the Design, Supply and Installation of the Honiara Area SCADA & Protection ...

Energy-efficient water pumping technology solutions, including retrofitting existing technology, making operational improvements and implementing new energy-efficient motors and pumps ...

The Solomon Islands National Energy Policy : 2019 - 2030 contains strategic direction and key priorities for the development of the energy sector in the next 10 years which will enable a transition to sustainable economic development in the country.

Solomon Islands Electricity Access and Renewal Energy Expansion Project; Solomon Islands: Solar Power Development Project; Solomon Power Solar Projects; Old Lungga Electrical Upgrade Projects; Honiara Power Station Upgrade Project; Solomon Power Network Extension Projects; SCADA Project; Green Village Project; Buala Power Station Upgrade Project

Appendix 6-6-5 Geographical distribution of earthquakes in Solomon Islands A6-7 Appendix 6-6-6 Earthquakes greater than magnitude 5.6 A6-8 Chapter 7 Appendix 7-5-1 Location of the Investigated Village A7-1 Appendix 7-5-2(1) Result of the Second Site Survey A7-8 Appendix 7-5-2(2) Result of the Second Site Survey A7-11 Appendix 7-7-1

The Solomon Islands Electricity Authority (Solomon Power) invites sealed Bids from eligible Bidders for the Design, Supply and Installation of the Honiara Area SCADA & Protection Works, Guadalcanal, Solomon Islands. The turnkey process up ...

STELCO is gearing up to establish a system that combines electricity streams from all islands they service into a single network. This network, named the Central SCADA System was produced by local engineers to offer swift solutions to electrical problems.

Increasing Energy Efficiency in Solomon Islands 12am, November 29th, 2023 Energy-efficient water pumping technology solutions, including retrofitting existing technology, making operational improvements and implementing new energy-efficient motors and pumps all reduced GHG emissions from the energy sector while helping to better meet current ...

Energy-efficient water pumping technology solutions, including retrofitting existing technology, making operational improvements and implementing new energy-efficient motors and pumps all reduced GHG emissions from the energy sector while helping to better meet current and future water demands at lower

energy costs. The contribution to NDC implementation is improving ...

Detailed design & installations of Honiara SCADA project. Develop more new network extensions in Honiara and at the Outstations. Solomon Power Offices. Complete and open office at Lata. Land acquisition for Auki office and commence construction. Continue focus on safety, training, nurturing and mentoring.
