

How do I find a solar installer?

Shopping around for great products and services is part of the process for finding a solar installer. Some states have over a thousand solar installers operating in the area, while others only have a few dozen. As more people turn to solar panels for their homes, more solar installation companies are available to meet the demand.

How many solar installers are there?

Some states have over a thousand solar installers operating in the area, while others only have a few dozen. As more people turn to solar panels for their homes, more solar installation companies are available to meet the demand. The growing number of installers gives you plenty of options but can make finding the right fit feel overwhelming.

How can I connect with a local solar installer?

Local home professionals are often connected with other local experts and have local solar installers to whom they regularly refer their customers. With a network of over 450 installers nationwide, soliciting quotes through the EnergySage Solar Marketplace all but guarantees that you can connect with a local solar installer.

How do I hire a solar power installer?

Once you've determined your needs and are ready to move forward with your solar project, hiring a solar power installer is much like hiring any contractor. Make sure you get multiple estimates based on the same criteria, get referrals, check your installer's certification, and get everything in writing.

Why should I choose a local solar installer?

SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction. This is why we recommend going with a company that's local to your area rather than a nationwide installer. How can I find solar installers near me?
