The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) proudly announces the inauguration of an electrification project in Ch&#227; das Caldeiras on the island of Fogo, Cabo Verde, powered by a solar photovoltaic mini-grid.

Praia, December 5, 2023 - The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) and the Foundation Smart City Cabo Verde have signed a memorandum of understanding aimed at spurring innovation in the field of renewable energy and energy efficiency in Cabo Verde.

This involves designing and building an electricity generation, grid and storage system up to 2029. This investment falls under Cabo Verde's national electricity master plan 2018-2040, and will reduce the country's dependence on expensive and ...

The project, financed under the ECOWAS Renewable Energy Facility (EREF) with support from USAID and Power Africa, involved the design, supply, installation and commissioning of a 40 kilowatt (kW) solar photovoltaic mini grid plant with 150 kW battery storage and a 50-kW generator.

Fogo, Cabo Verde - July 18, 2024 - The ECOWAS Centre for Renewable Energy and Energy Efficiency (CEREEC) is pleased to announce the inauguration of an electrification project through a clean energy mini-grid system in the locality of Ch&#227; das Caldeiras on the island of Fogo, Cabo Verde.

The government of the Republic of Cabo Verde, the European Union and the EIB have signed financing of EUR300 million (\$330.6 million) for the country's energy, digital and port sectors; more than half will go to building a grid, generation and energy storage system up to ...

This involves designing and building an electricity generation, grid and storage system up to 2029. This investment falls under Cabo Verde's national electricity master plan 2018-2040, and will reduce the country's ...

Easy Smart Grid is driven by the vision to make Smart Grid affordable, robust and understandable. This site shows how we aim to do this, the team and objectives behind it, and typical applications.
