What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US.Our journey is driven by a simple yet powerful belief: that technology can and must serve as ...

1e février 2022. L"attente est terminée ! Nous avons lancé la première plateforme d"analyse en temps réel au monde pour les développeurs de systèmes photovoltaïques et les prestataires de services solaires.

The planet warms up and so does Smarthelio. The "doctors of solar plants" got selected by Verbund x Accelerator Program 2022 to collaborate with the Austrian utility, thanks to their plug-and-play solution that can be integrated into any solar system and generate up to 5% more clean energy. A mission with a common objective: to gain speed in the transition to a green global ...

Did you know that we are a leading producer of dried fruits and nuts and cake mixtures, and the HELIO brand was recognized in 2021 as the most valuable Polish brand of dried fruits and nuts? Our plant in Brochów is one of the largest and most modern in the industry in Europe. We cooperate with suppliers from all over the world, and production ...

5 ???· The Helio Ring, at its core, works in a similar fashion to those other smart rings, tracking metrics like heart rate and sleep, while working in combination with Amazfit smartwatches to offer a more reliable window into your recovery needs. Like Samsung, Ultrahuman and RingConn, you don"t need a subscription to its tracking to good use.

SmartHelio is a clean-tech start-up based out of Lausanne Switzerland. We optimize the return on investment for both solar roof-top and mini/micro-grid companies, and their clients using our IoT sensor technology and AI-based data analytics.

Based in the town of Czerwionka-Leszczyny, in the Slaskie region of southern Poland, Helioenergia specialises in solutions that use photovoltaics - technology that converts solar energy into electricity - to provide power for public spaces.

Managing people"s emotions and expectations in a startup. You need to convince super-smart people to work with you for less/no money and sell them your vision. Then, when the team is growing up, you need to keep hiring smart people and make sure they are intrinsically motivated to work for the vision.

SmartHelio says it has spent the last two years developing smart, physics-informed, AI-based algorithms and is now launching a software solution that can be easily integrated into its customers...

Using Smart Helio"s proprietary algorithms based on Physics-Informed AI that c on si ders factors like high temperature, irradiations, and OEM specifications, etc, it was able to predict the number of string disconnections in the upcoming weeks. This helped the client to take action and replace the inverters before they bl ew.

The smart Helio Ring will surely give tough competition to big players in the market with its advanced technology and premium features. It"d be one thing if Amazfit Helio Ring failed to deliver standards, but like I said, I"m impressed.
