For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:

The average pricing of a solar system in Indonesia is IDR 15 - 21 million per kWp installed and even less if for larger installations. For the batteries, you can expect to pay an additional IDR 10 - 12 million per kWh for LifePO4 lithium batteries, which give you the biggest bang for your buck.

You can make monthly payments for 15-25 years. As an illustration, the average time the sun shines optimally in Indonesia is 4 hours. From these hours of solar panels producing electricity, your company will pay SUN Energy on a monthly basis. You don't need to worry because SUN Energy's tariff will be 10-30% lower than the national grid's tariff.
