

When does the solar pavilion open?

It opens on 22 October. The Solar pavilion is designed by V8 architects together with Marjan van Aubel Studio, who worked together with Kameleon Solar on the development of a unique set of colorful solar panels. Transforming Solar Technology to Solar Design The Netherlands is known worldwide for its designed solutions.

What is the Solar Pavilion?

Imagined as a space to experience the poetic power of the sun, the pavilion is an energetic meeting place where visitors can experience the sensory nature of solar energy. It opens on 22 October.

Where does Google's solar power go?

Google will use about 85% of the project's solar power for data centers in Ellis County and for cloud computing in the Dallas region. In Ellis County, Google operates a data center campus in Midlothian and is building out a new campus in Red Oak. The rest of the solar power will go to the state's electrical grid.
