

What is Thor series solar street light?

THOR Series is the 2022 latest design Integrated solar street light, die-casting aluminum lamp body with black color with detachable battery box and cob led lights, customized size acceptable for your project. Classic all-in-one design, by using Philips led chip (150lm/w) with LiFePO4 lithium battery, well-favored by the market.

Why should you choose integrated solar street lights?

Integrated solar street lamp promotes safety for drivers as their illuminance is greater than traditional street lights. You can install them effectively on main roads, highways, rural roads, and roadways. Installation is very easy and price per street light unit is cheaper than other brands.

How many lumens does a solar Streetlight have?

Solar Lighting International offers solar streetlights in multiple brightness options: 7,400 lumens, 6,600 lumens, 14,800 lumens, 13,300 lumens, 16,000 lumens, and 22,200 lumens for standard streetlight fixtures.

Do solar street lights rely on a utility grid?

We are frequently asked to design solar lights for highways, city streets, industrial solar street lights for areas such as port roadways, and residential street lights as well. Our commercial solar street lights do not rely on the utility grid, allowing them to be installed on rural roads and streets without running power to the light pole.

Are solar street lights a good idea?

Solar street lights can also be integrated with CCTV cameras for an added security for the people. There are public areas where parents, children and old people love to have recreational activities. Thus, solar powered street lights can help promote safety among park dwellers.
