

Solar PV has the potential to reduce the cost of power supply in Papua New Guinea and reduce carbon emissions. By issuing this Notice, PNG Power intends to start allowing solar PV systems to

Whether your project is 5kW for your house, or 5MW for a solar farm, contact us today for our Certified Solar Energy Systems Design team to start on your project. Whether you already know what you need or you are still learning, reach out ...

These solar solutions come in set kits that included lights, battery boxes and a solar panel ranging from small 5 volts panel to a 12 volts panel which is the largest of the kit. We also sell other solar products like solar panels, invertors, solar controllers, solar cables, solar batteries and lights.

Whether your project is 5kW for your house, or 5MW for a solar farm, contact us today for our Certified Solar Energy Systems Design team to start on your project. Whether you already know what you need or you are still learning, reach out to us. We are here to help.

Solar Solutions PNG is a leading organization dedicated to transforming the lives of people in Papua New Guinea through the power of solar technology. Our mission is to create a prosperous nation where every individual has access to the essential technologies needed to lead healthy lives filled with dignity and opportunity.

Grid-tied and off-grid solar system installations; Solar maintenance and performance check services; Ensuring compliance with local and national solar standards; Solar solutions designed for various climates and conditions; Efficient inverters for reliable energy conversion; Future-proofing with scalable solar installations

At PNG Solar Supply, we want to provide you with the tools you need to set up your solar systems. We are an experienced Papua New Guinean owned business focused on offering products from diverse manufacturers to best suite your needs. We have a team that is able to help with design, and we handle everything for you.

Our understanding of energy requirements in Papua New Guinea has led us to become distributors of leading solar brands here. We work with manufacturers whose products are suited to the difficult environments that exist here and have the infrastructure required to distribute, support and maintain them.

AIMS Power inverters, inverter chargers, solar panels and other electrical system accessories can create reliable sources of backup power that residents of Papua New Guinea need for safety and peace of mind.
