

Why are people moving to solar power in Yemen?

The migration to solar power is part of what researchers say is an energy revolution in the country of 28 million, where the electric grid has been decimated by fighting. More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals.

Why do Yemeni people need solar energy?

The collapse of electricity in Yemen and the absence of service due to the turmoil of war pushed Yemeni people to look for another alternative. They found that in the solar energy which their country enjoys throughout the year. With this alternative, they even reached areas that did not enjoy electricity before.

Is solar power a lifeline in Yemen?

"For many in Yemen, especially for farmers, solar power has been a lifeline," says Matt Leonard, who specializes in microfinance with IFC. "The key now is to scale up its use." Yemen has long been the poorest country in the Middle East and North Africa, but a conflict that broke out in 2014 has pushed the country to the brink.

Can solar power save Yemeni rials?

Farmer Mohamed Ahmad Sid El Rassam can attest to those benefits. He built a solar-powered water pump on his land in the region of Beni Hocheich. The setup chopped his diesel use by more than 85 percent, saving him 17 million Yemeni rials (\$68,000) a year.

How much does a solar system cost in Yemen?

Rassam paid about 50 million Yemeni rials (around \$90,000 based on the unofficial market exchange rate) for his system, which is considered large by local standards. The average cost of an array is around \$10,000. Rassam financed the solar panels with a loan from Al Kuraimi Islamic Bank, one of the country's largest private lenders.

Why should you switch to home solar in Yemen?

As electricity rates are rising the cost of solar panels have never been lower and for solving the lack of electricity in Yemen. Switch to home solar and save with GTS. Solar Warranty GTS has you covered with a lifetime home solar warranty. The Longest Full Solar Warranty in the Industry

Iman Hadi Al Hamali, a Yemeni entrepreneur, is leading a team of 10 women at a solar panel power plant in Abs, Hajjah, making a significant impact by providing safe, affordable, and environmentally friendly power to homes in Yemen.
