

The Rich Solar 12V - 400AH - 5.1kWh Lithium Battery Bank boasts an extended cycle life capacity and offers simpler maintenance when contrasted with alternative battery technologies. Utilizing LiFePO4 technology, it provides superior thermal and chemical stability, thereby enhancing battery safety, all within a compact and lightweight form factor.

These 400 Ah solar batteries can store power for grid-tied, grid-assisted backup, or off-grid solar installations. A 400 Ah battery operating at 6V (volts) can store 2,400 watt hours, or 2.4 kWh, of DC power. With a 50% depth-of-discharge (DOD) rate to extend the battery life, the 400 Ah battery could deliver 1.2 kWh of daily power.

3200W Power & Fast Charging? With a 3200W high load power, our 12V 400Ah LiFePO4 battery is perfect for RV, marine, boat, fishing, camping, solar home, trolling motor, and off-grid applications. It can realize 100% SOC & ...

EFFICIENT SOLAR STORAGE - Dakota Lithium batteries offer double the usable power of lead acid or AGM. 15 kWh = 30 kWh lead acid performance. **VERSATILE BATTERY BANK** - Choose 400Ah (5 kWh) for mid-sized RVs, school buses, cabins. Expandable with parallel wiring kit. **WARRANTY AND BUNDLE** - Backed by an 11-year warranty.

Discover the pinnacle of energy storage technology with our LiFePO4 12V 400Ah lithium battery. Engineered for unmatched power and reliability, this battery is your solution for demanding energy needs. Whether for residential, commercial, or industrial applications, trust this lithium battery to deliver consistent performance and durability.

When purchasing a solar charge controller, you must confirm that the controller is compatible with the lithium-iron phosphate battery. The Renogy Adventurer, Rover, Wanderer, and Rego charge controllers are all fully compatible with our lithium-iron phosphate batteries.

One of the most energy dense, compact, and space efficient options is Renogy's largest single battery, the REGO 400ah lithium iron phosphate battery With 5000Wh (4000Wh with an 80% Depth of Discharge) of energy, it is powerful enough to run nearly all of your DC & AC appliances... even a small air conditioner!

REGO 12V 400Ah LiFePO4 Battery empowers your off-grid lifestyle with an impressive 5.12KWH power capacity in one single battery allowing you to run high power demand appliances while saving space in your RV and installation time. Plus, its 62 BMS safety protocols make this battery the most reliable in its category.
