

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

How many jobs will the new solar power plants create in Senegal?

The addition of the solar power plants forms part of the World Bank Group's Scaling Solar program and are funded by the International Finance Corporation (IFC), European Investment Bank and Proparco. The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal.

How can solar power plants benefit Senegal?

The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal. Because Senegal mainly relies on imported oil for electricity, solar power plants offer a more reliable and sustainable green energy source that costs less.

Can Senegal develop 60 megawatts of solar power?

The government of Senegal has been working with the World Bank Group to develop 60 megawatts of solar power through Scaling Solar. According to World Bank data, over 70% of the population of Senegal currently has access to electricity.

Who sponsors Senegal's solar power plants?

The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering process was led by Senegal's Energy Regulatory Commission (CRSE). For more information, please read the press release [here](#).

Will solar be Senegal's cheapest energy source?

The planned Scaling Solar projects underscore Senegal's commitment to integrating renewable energy resources into its energy mix. The successful tender set a new benchmark for the region. With prices under 4 US cents per kWh, solar energy will become Senegal's cheapest energy source. Questions or Interest? [Subscribe to our mailing list](#).

Près de 540 000 personnes au Sénégal vont avoir accès à une électricité propre et abordable après la mise en service de deux centrales photovoltaïques, financées par IFC, la Banque européenne d'investissement ...

Près de 540 000 personnes au Sénégal vont avoir accès à une électricité propre et abordable après la mise en service de deux centrales

photovoltaïques, financés par IFC, la Banque européenne d'investissement (BEI) et Proparco dans le cadre du programme Scaling Solar du Groupe de la Banque mondiale.

Equipped with a network of inverters (8) and transformers (16), the Diass solar power plant has a capacity of 23 MWp. The park is connected to Senegal's national electricity grid from the Kael substation owned by SENELEC.

In Senegal, close to a quarter of the total population lacks access to electricity, with rural communities enduring the least access. In May 2021, two new photovoltaic solar plants opened in Kael and Kahone, two ...

Dakar, June 1, 2021 - Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.
