What is SolarEdge home?

SolarEdge Home is a personal, 24-hour energy ecosystem that controls and optimises residential solar systems in real-time. With SolarEdge Home, homeowners can significantly reduce their electricity bills, lead more sustainable lifestyles, and adapt their systems as their needs evolve.

Why should you choose SolarEdge home?

With SolarEdge Home, homeowners can significantly reduce their electricity bills, lead more sustainable lifestyles, and adapt their systems as their needs evolve. This complete residential energy ecosystem includes the following products:

Which direction do solar panels face in South Africa?

If you are located north of the equator, your solar panels will face eastward. If you are located south of the equator, your panels will face westward. A regular home solar panel system can provide electricity for a typical household in South Africa. Solar panels will generate electricity whether they are facing south, north or east.

Does SolarEdge have smart home accessories?

SolarEdge offers their own and integrated Smart Home Accessories to give you peace of mind during Power Outages. Once configured, the SolarEdge Home Hub will switch off unimportant appliances to conserve your Battery Capacity until the grid returns.

Is SolarEdge a good PV system?

SolarEdge came highly recommended via friends who already had a SolarEdge PV system installed. The SolarEdge monitoring platform, system reliability, exceptional safety, and long product warranties further convinced him that SolarEdge was the right system for his home.
