

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

What is the biggest solar project in Guernsey?

A decision on the application for the 8.33 acre farm, which is a similar size to eight football pitches, will be decided at a later date. Nick Crolla, head of sales and marketing at Rubis, told BBC Radio Guernsey: "It is going to be the largest solar project in Guernsey."

Will Guernsey have a standby charge?

Charges for large scale renewable energy set ups in Guernsey are being scrapped. Standby charges currently only apply where the installed power-generation capacity is above 25kW - the equivalent of about 75 standard solar panels. From 1 April any size of renewable energy installation will not have to pay a standing charge.

What are Guernsey's on-Island initiatives?

Alan Bates, CEO at Guernsey Electricity, said: "These on-island initiatives are designed to increase the amount of electricity generated from local renewable sources. The electricity feeds directly into the island's network so that all our customers can benefit from locally generated, clean solar energy."

Where can I send a story to BBC Guernsey?

Follow BBC Guernsey on Twitter and Facebook. Send your story ideas to [channel.islands@bbc.co.uk](mailto:channel.islands@bbc.co.uk). There are 310 photovoltaic panels on the roof of the newly reopened Grow Ltd headquarters.

"We've set ambitious but we think realistic targets with industry for solar PV. We would rather set an ambitious target than set a low one and rest on our laurels." She said that the expansion of solar power would be for domestic and commercial markets.

Building a windfarm off Guernsey's coast could reduce bills and make millions of pounds through renewable energy, a report has found. Reports into how solar, tidal and wind energy could benefit...

Then we stumbled across Perth Solar force and ended up getting a 5kW system with 20 GCL panels and a 5kw

Inverter fully installed for \$3500. Over 50% cheaper than almost all of the other quotes. Great value for money, did everything they said they would. A+++ Look forward to getting batteries off you in the future.

To maximise your solar energy it is important to utilise as much power during the day as possible. Solar systems only function during daylight hours, so at night your energy needs to come from the grid. Households with a solar system are paid to send their excess energy produced back to the grid at a lower rate of about 3c per unit.

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) ...

A group of deputies came out this week in support of pursuing solar and especially wind power. Environment & Infrastructure also has established an energy partnership to shape the electricity strategy, deliver aims of its energy policy, and help to secure clean and affordable energy for the island's future, and said the work was "powering ...

1. Consultation and Site Assessment: Solar Force provides a free consultation to assess the client's energy needs and evaluates the site's solar potential. We will analyze factors such as roof orientation, shading, and available space to determine the feasibility of installing solar panels.
