Enfinity Global Inc., a renewable energy leader, has secured EUR165 million to develop 3 utility-scale solar plants totalling 147 MW (megawatts) in Italy's Lazio region. Set to be operational by 2026, the energy will be sold under long-term power purchase agreements (PPAs) with an international tech provider. The financing, arranged through a club deal with ING and Rabobank as lead ...

In 2023, Italy upgraded its already substantial PV capacity base with 4.8 GW of new solar capacity, thereby again ranking as one of Europe's largest three solar markets. The country is on track to meet the targets set in its National Energy and Climate Plan (NECP) for 2030, but will need to ramp up its efforts further to meet the more ...
