

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Can solar replace fossil fuels in Papua New Guinea?

The potential for solar to replace fossil fuels in Papua New Guinea is high, according to Lighting Papua New Guinea, which has played a key, pivotal role in multilateral efforts to promote and foster solar and renewable energy investments and use in Papua New Guinea.

Is Papua New Guinea embracing mobile pay-go?

Papua New Guineans are embracing mobile pay-go, aka PAYG, solar, which is proving to be a potent, if small-scale, agent of change in terms of improving energy access, rural electrification, renewable energy use and sustainable development.

Does Papua New Guinea have electricity?

With a population of some 4.85 million, access to electricity in Papua New Guinea was just 22.93% in 2016, according to World Bank statistics compiled from officially recognized sources. That dropped to 15.47% for the rural population, but reached 72.69% for the urban population. Data is scanty and spans a wide range, however.

Whether your project is 5kW for your house, or 5MW for a solar farm, contact us today for our Certified Solar Energy Systems Design team to start on your project. Whether you already know what you need or you are still learning, reach out to us.
