

What is a solar panel mounting bracket?

Refer to section "Installation handover" This solar panel mounting bracket is a robust and versatile galvanised mild steel bracketsuitable for mounting a variety of solar panels between 20W and 150W in size,against a wall or on a post.

How big is a solar panel bracket?

Solar Panel Bracket Pole Mount. Fits onto a 50mm pole. Maximum panel size: Up to 100W Module. Dimensions: 90 cm x 65 cm x 32cm. Weight: 4,4kg. All solar products,power systems,water heating and gas products and their components must be installed by appropriately qualified personnel.

How much weight can a solar light mounting bracket hold?

Install light poles with a minimum size of 1.5 inches and a maximum size of 3.5 inches. Please note that the thickness is 0.5mm. The solar mounting bracket can hold up to 150 pounds. The solar light mounting bracket is used in outdoor lighting,we do not recommend you install other products more than 150 pounds. DURABLE METERIAL AND IS TO INSTALL.

How do I choose a solar light installation site?

Ensure your solar light installation site is free of obstructions from access to the sun. Also,you'll want to ensure there aren't foreign light sources that can interfere with the panel's light sensor. Keep the pole away from heat sources and ensure it's on level,solid ground (we can accommodate if the soil isn't the most sturdy).

What is a Solatube light bulb add-on?

This add-on easily attaches to the inside of the system's tubing to deliver lighting for nighttime use. It also prevents unnecessary clutter on your ceiling because it uses the same space as a Solatube Daylighting System. For the 160 DS, the light fixture houses one light bulb. For the 290 DS, up to two light bulbs may be installed.

Are solar street lights maintenance-free?

Solar street lights are designed to be essentially maintenance-free. However,in certain regions with extreme conditions,some level of maintenance is required to ensure the proper function of the lights. These regions are typically where there is a risk of dust,snow,or ice covering the solar panels and thus reducing the power of the lights.
