

Choose a customizable and attractive solar roof that blends perfectly with the aesthetics of any structure. Suncol Tile replaces traditional roofing material by seamlessly integrating into any roof. Its high energy efficiency changes the way buildings operate and reduces CO2 emissions making the building sustainable.

Solar panels, also known as photovoltaic (PV) panels, are a smart investment for homeowners. These sleek devices silently convert sunlight into electricity, powering your home while reducing your reliance on traditional energy sources.

SunPower® solar panels deliver consistently more energy and long-lasting peace with the highest performing solar energy systems available. SunPower is the choice of solar energy from more homeowners and businesses around the world. SunPower solar panels produce 44% more power than conventional panels *.

Greek Solar Companies. wpd Solar Hellas develops, finances, invests and operates photovoltaic projects. Utilizing the group's vast experience within the renewable energy industry over the past two decades, we support PV projects across all phases to ensure that targets are met, and profitability is guaranteed.

Solar Systems Hellas is one of the leading companies in the sector of Renewable Energy Sources in Greece. The object of the company is the marketing, storage and promotion of photovoltaic equipment for the construction and installation of Photovoltaic Parks and domestic Photovoltaic installations of any size.

Greece 2 constructed photovoltaic parks, 1 MW each are for sale. The parks are constructed with bifacial branded panels, Huawei inverters and tracker mounting system. The agreed tariff with the network (fit), for the next 25 years, is at EUR0.041 / kWh, with each park is expected to have an annual production of about 2.000.000 kWh, and the ...

Central Greece, PV Park of 2 MW capacity with annual revenues of 600.000 EUR, for sale. The PV Park has FIT 0.21 EUR/KWh, is located on a privately owned plot of 53.000 square meters, and has been connected to the grid in November 2012. It is constructed with ISOFOTON panels and a POWER ONE inv...

All photovoltaic panels imported in Greece have a positive tolerance of up to + 4% of their nominal power in watts, giving in fact more watts, which allows them to reach efficiencies of up to 17.3% in relation to the incident solar energy.
