

How do I get a solar PV grant in Ireland?

The grant is administered by the Sustainable Energy Authority of Ireland (SEAI). You must apply for the grant and get a grant offer from the SEAI before you get your solar panels and start any work. You can also get SEAI grants for solar PV for your business or a non-domestic building.

What are the best solar panels grants in Ireland?

1. SEAI Domestic Solar PV Grant The SEAI Solar PV Grant, or Domestic Grant, is one of the most well-known solar panel grants in Ireland. It helps homeowners reduce the initial cost of installing solar photovoltaic (PV) panels on their properties.

How much does a solar panel grant cost in 2024?

In 2024, the grant is capped at EUR2,100. The Government plans to reduce the grant by up to EUR300 every year, as it expects the cost of solar panel systems to reduce over time. It is intended that the grant will end in 2029. The grant covers materials and labour, unless you are a contractor doing the work in your own home.

How can I support a solar PV project in Ireland?

Support for Climate Initiatives: Assist Ireland in achieving national climate targets. Generous Grant Aid: Secure up to EUR162,600 in funding to finance your solar PV project. The grant amount corresponds to the power capacity of the solar PV system installed, with incremental tiers.

Who is eligible for a solar panel grant in 2024?

In 2024, eligible homeowners can receive up to EUR2,100 towards the cost of installing a PV system in their home (and a battery storage system, if required). But who exactly is eligible for an SEAI solar panel grant? Well to qualify, you need to meet the following criteria:

How do I get a SEAI grant for solar panels?

You must apply for the grant and get a grant offer from the SEAI before you get your solar panels and start any work. You can also get SEAI grants for solar PV for your business or a non-domestic building. This includes public buildings, sports clubs and community organisations.

For example, if you want to install solar panels on a large roof, you may need to carefully consider the size and layout of the solar panel system to stay within the 300 sqm limit. This may mean choosing a more efficient solar panel model or spreading the panels across multiple roofs or areas.
