

4.95kWp/11.4kWh Solar Installation in Rotuma. Solar Fiji engineered, design and installed one of the biggest residential Off Grid Solar Power Systems in Rotuma, Fiji. The System consisted of the following equipment: 18 x QCells 275W Solar Panels - total of 4.95kWp; 3 x SimpliPhi 3.8kWh Lithium Ferrous Battery Bank - total of 11.4kWh

In a first of its kind for the region, this 1MWp grid-connected solar farm with a 1.1MWh battery energy storage system helps provide a smooth supply of renewable energy for 18,000 residents of Taveuni, Fiji's third largest island. ...

Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are ...

This 47.04kWp solar system with 140kWh battery storage provides power to all loads as a mini grid hybrid system thus reducing generator runtime. The system incorporates a combination of Trina Solar, Victron Energy, Fronius and Pylontech products installed and commissioned by Clay Energy as an EPC project.

In a first of its kind for the region, this 1MWp grid-connected solar farm with a 1.1MWh battery energy storage system helps provide a smooth supply of renewable energy for 18,000 residents of Taveuni, Fiji's third largest island. This solar farm, designed and installed by Clay Energy as an EPC project, enhances the island's existing ...

Solar Fiji specialize in the engineering, supply & installation of grid connect and off grid power systems. Official Distributor & Service Partner of Victron Energy. We draw on decades of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific.

Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid. The full operations & management of solar energy projects.

From the design of small village solar power systems to the installation of the grid and off-grid systems, we can offer a solution to suit the needs of domestic, commercial, tourism, and rural clients. Clay Engineering specializes in renewable energy power systems and the design of remote infrastructure services.

4.95kWp/11.4kWh Solar Installation in Rotuma. Solar Fiji engineered, design and installed one of the biggest residential Off Grid Solar Power Systems in Rotuma, Fiji. The System consisted of the following ...

All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires. SPE's panels combined with our specially designed intelligent battery chargers will have enough power to operate efficiently even during limited sunshine.

360 Energy is a Tesla Powerwall Certified Installer, which means we offer a customised solar-plus-battery solution that enables you to access the free, abundant power of the sun and reduces your reliance on fossil fuels. With Powerwall you can store solar energy generated during the day for use any time.

All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires. SPE's panels combined with our specially designed intelligent battery chargers will have enough power to operate efficiently even ...
