

# Solar power generation government project approval

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What if Libra solar was approved?

If approved, Libra Solar would include a 700 megawatt (MW) solar energy facility, a 700 MW battery energy storage system, and a 24-mile-long generation tie-line. The project would generate and store enough clean energy to power more than 212,000 homes.

What's new in solar energy development across the west?

WASHINGTON -- The Department of the Interior today announced an updated roadmap for solar energy development across the West, designed to expand solar energy production in more Western states and make renewable energy siting and permitting on America's public lands more efficient.

Will solar power 2 million homes by 2035?

WASHINGTON -- The Department of the Interior today announced that the Bureau of Land Management (BLM) is advancing nine solar projects on public lands that could potentially power nearly 2 million homes with clean energy. The projects will support President Biden's goal of creating a carbon pollution-free power sector by 2035.

What is a solar power purchase agreement (PPA)?

Homeowners and businesses engaged in solar power purchase agreements (PPAs) hosting third-party owned solar systems in states with SREC markets are able to reduce their costs of electricity by forgoing contractual ownership of SRECs associated with their systems' output and enabling the system owner to sell the SRECs into the state SREC market.

What is solar power in your community?

Solar Power in Your Community serves as a guidebook to assist local government officials and stakeholders in increasing local access to and deployment of solar photovoltaics (PV). This 2022 edition highlights new technologies and strategies to maximize the benefits of solar to all communities.
