

Alongside the Group's thermal biomass activity, Albioma operates a fleet of photovoltaic power plants in Martinique. All were built in areas free from conflicts of use, either on the ground (Lassale) or on the roof of residential properties (SIMAR) et or industrial buildings (Dillon distillery, a municipal waste treatment plant or the Galion ...

Alongside the Group's thermal biomass activity, Albioma operates a fleet of photovoltaic power plants in Martinique. All were built in areas free from conflicts of use, either on the ground (Lassale) or on the roof of residential properties ...

TotalEnergies offers solar power plants, with or without storage batteries, for the production of electricity. The Lamentin solar farm, located on the island of Martinique, is a hybrid solar power plant made up of "standard" elements such as solar ...

The Galion solar power plant is located in Trinité, to the north of Martinique, on the roof of the island's only sugar refinery. It is located in the immediate vicinity of Galion 2, the 100% biomass power plant operated by Albioma since 2018, and has an installed capacity of 420 kWp. In 2022, it supplied 310 kWh of electricity on the grid.

Le Marin, a town in the south of the island, stands out for its exemplary residential solar installation. A costly investment justified by several reasons. Yoann Brochier invested EUR19,000 in his solar installation, including panels with a capacity of 5.1 kWp and two LiFePo4 batteries with a total capacity of 10 kWh.

Le coût moyen d'une installation solaire en Martinique varie généralement entre 8 000 EUR et 25 000 EUR, selon la taille et la complexité du système. Pour une maison typique, une installation de 3 kWc peut coûter environ 10 000 EUR, tandis qu'un système plus important de 9 ...

Located in eastern Martinique, in the island's third-largest city, the solar power plant at the Le Robert CVO organic waste-to-energy plant has an installed capacity of 1 MWp. The plant, installed on the roofs of industrial buildings on a 6-hectare site, generated nearly 1.22 GWh of electricity in 2018.

Reconnaissant la nécessité de l'énergie solaire en Martinique, le gouvernement a mis en place plusieurs subventions pour soutenir son installation et sa mise en œuvre. Ces subventions, essentielles dans le financement solaire, apportent un soulagement économique et ceux engagés dans des pratiques durables.
