Like most people in Sri Lanka I too was on the look out for a viable solution to the looming power bill. I came across REM Solar on FB amongst many other vendors all of whom I contacted . The response however was totally different from REM, the response to educate on the workings of the system was primary rather than to make a sale.

Hybrid Solar Power System. A hybrid solar system combines elements of both grid-connected and off-grid systems. It uses solar panels to generate electricity, which can be stored in batteries for later use. The system can switch between solar and grid power, providing a flexible and reliable energy solution.
