

Investigate and research whether solar is right for your home/business - compare your power use with potential power solar panel output, use the SEANZ Solar Optimiser or Gen Less Solar power calculator. Decide if you need a battery system - if you don't use much power during the day, a battery can store your generation for use in the evening.

This is the perfect small portable Solar Powered Generator. It can supply a constant 600w 230V AC Output (1200w Peak Surge) thanks to the Sine Wave Inverter it uses internally. It has a compact 700Wh (700 watt hour total capacity) Long Life Lithium Battery (575Wh usable capacity) with BMS Internally.

This is the perfect small portable Solar Powered Generator. It can supply a constant 600w 230V AC Output (1200w Peak Surge) thanks to the Sine Wave Inverter it uses internally has a compact 700Wh (700 watt hour total capacity) Long Life Lithium Battery (575Wh usable capacity) with BMS Internally can charge from Solar Power (via a solar panel plugged in) or it can ...
