

EDF Renewables is strengthening its presence on the island of Reunion with the commissioning of the Rivière des Galets solar power plant (4.6 MW). Inaugurated on October 27, 2023, this is the fourth EDF Renewables ...

The solar capacity has increased by 44% between 2011 and 2015 and now represents 8.5% of the electricity mix, with a production of 245 GWh. It is interesting to underline the fact that Reunion Island has already exceeded the 30% limit rate (Ministerial Decree of 23 April 2008) of RES penetration into its electricity grid.

Solar energy policies in La Reunion A carbon intensive island... With a strong regional ambition for the Energy Transition : the Multi Annual Energy Plan (PPE) adopted in 2022... The key objective of this plan is to reach 100% renewable energy sources in electricity generation by 2030, through : And a smart specialization strategy (RIS3) aiming

EDF Renewables is strengthening its presence on the island of Reunion with the commissioning of the Rivière des Galets solar power plant (4.6 MW). Inaugurated on October 27, 2023, this is the fourth EDF Renewables installation on the island. A new solar power plant now sits below the dizzying reliefs of Bas Mafate, on the island of Reunion.

Diverse renewable energies have been installed in Reunion island: solar, hydro, wind, marine and biomass. The use of variable renewable energy forecasting combined with battery storage for industrial-scale installations has been proven to ease the grid integration of these renewable energy sources.

Découvrez avec Austral Groupe Energie des solutions haut de gamme en installations photovoltaïques et isolation écologique ; la ouate de cellulose. Exclusif revendeur Solax Power, nous offrons des services sur mesure ; la Réunion, ; l'île Maurice et en France métropolitaine.

This 4.6 MWp capacity solar plant, situated in the "ZAC ECOPARC Le Port" economic and industrial activity zone, will supply renewable energy equivalent to the annual consumption of 4,500 individuals, or 14% of the commune of Le Port's population, aiding the island's energy transition.

Découvrez avec Austral Groupe Energie des solutions haut de gamme en installations photovoltaïques et isolation écologique ; la ouate de cellulose. Exclusif revendeur Solax ...

With high reliable prediction and energy management software, the plant will feed in the Reunion Island grid a no-intermittent renewable energy. This solar power plant is a world first and paves the way for a new era of photovoltaic predictable, stable and available. Delivery is planned during the first half of the year.

Optimisez votre consommation énergétique avec Austral Groupe Energie, leader des installations photovoltaïques à la Réunion, île Maurice et Hauts de France. Revendeur exclusif Solax Power pour des solutions sur mesure.
