

Why choose Seychelles solar energy?

Local Seychelles experience Mahe, Praslin, La Digue and outer islands Certified by Seychelles Energy Commission Approved by PUC Technical staff qualified in solar energy & energy efficiency Quality renewable energy products Warranty & Certification Best price Optimal performance Best return on investment Solar Energy PV Systems

Who installs roof top solar photovoltaic PV systems in the Seychelles?

Sine 2012,ESShas been installing rooftop solar photovoltaic PV systems in the Seychelles. Therefore,we have experience with grid-tied roof top solar PV system. Also we are an approved installer by the Seychelles Energy Commission and Public Utility Corporation.

How does solar PV work in the Seychelles?

Currently,Seychelles has a net metering policywhere electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month. Further details on how solar PV works in the Seychelles please see our Frequently Asked Questions page.

Who is energy solutions Seychelles?

Welcome to Energy Solutions Seychelles - Leading solar energy company in the Seychelles We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Why Choose Us Most experienced

What is the energy storage system in the Seychelles?

The project includes an energy storage system with a capacity of 5MW and 3.3 megawatt-hours(MWh),allowing for the safe and stable supply of electricity from the PV power plant to the main island of Mahé; and further increasing the resilience of the national grid of the Seychelles.

Who is ESS Seychelles?

Contact Us ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. About Us FAQ About PV Products

The floating photovoltaic (PV) plant will be located on Mahe island and will be the world's biggest seawater floating solar system and the first one of its kind in Africa, once completed. Covering an area of 40,000 sq m of water, the facility will consist of around 13,500 PV modules whose output will account for 2% of Seychelles' national ...

At ESS we can implement large scale solar farm projects. Any PV system over 100kW are categories as Independent Power Producers (IPP) and will need special permission for the Seychelles Energy Commission

(SEC). For more information on how to apply, please contact us for a free consultation on your project.

Seychelles is planning to install Africa's first utility-scale Floating Solar Photovoltaic (PV) system on the sea, said a top official of the Seychelles Energy Commission. The chief executive officer of the commission, Tony Imaduwa, told SNA on Monday that this project will inject clean and green energy into the island nation's electricity system.

In the past three years, the Seychelles has increased its installed solar PV capacity more than fivefold to 12MWp, or around 4% of national power demand, saving millions of dollars in liquid fuel imports in the process.

The project is expected to create job opportunities and boost economic growth. The floating solar PV plant is a key part of Seychelles' energy transition. It is regarded by the government as a significant milestone in the country's efforts to achieve carbon neutrality. Floating solar plant seen as a game-changer for Seychelles

Implementation of Africa's first independent power producer floating solar photovoltaic (FPV) project is continuing in the Seychelles.. The project, launched by the Seychelles Ministry of Environment, Energy and Climate Change and the Seychelles Energy Commission, will be the first utility-scale, private-sector funded floating solar project in Africa, ...

The residential rebate scheme offers a rebate of 25% of the first 3kW according to the current SCR 38.88/Wp decided by the UNDP and SEC in the Seychelles. Currently between 25,000 SCR - 29,000 SCR. In order to qualify for the rebate certain criteria must be followed by a PV installer.

Seychelles, home to Africa's first IPP floating solar PV project The project, which is anticipated to commence July, will be built on a lagoon on Mahé, the main island of the archipelagic nation. The company claims it will be the world's largest floating PV project to be installed in a saltwater environment when it is completed by the end ...

The 2.5 percent is expected to increase to 5 percent in the coming three years with several renewable energy projects. Seychelles is also planning to install Africa's first utility-scale Floating Solar Photovoltaic system on the lagoon at ...

3 ???; Located in Maricopa County, the Catclaw Solar and Energy Storage Project has a 225MW solar PV capacity and a 250MW/1GWh energy storage plant. The project is expected to be operational in 2026 and ...

The Ile de Romainville Solar Park is a 5-megawatt (MW) solar photovoltaic (PV) power plant with battery storage in the Republic of Seychelles. The project includes an energy storage system with a capacity of 5MW and 3.3 megawatt ...

The floating photovoltaic (PV) plant will be located on Mahe island and will be the world's biggest seawater floating solar system and the first one of its kind in Africa, once ...

French renewable power developer Qair has signed a power purchase agreement with Seychelles authorities to construct a 5.8 MWp floating solar plant on the Providence lagoon, near Mahé island. The project, supported by African Development Bank and other financial providers, will contribute to the country's energy transition and sustainable ...

The Seychelles inaugurated a UAE-funded five-megawatt solar photovoltaic plant with battery storage, the second clean-energy project in the African island nation. ... Romainville Solar Park was constructed on the same ...

Seychelles' 5-megawatt solar photovoltaic (PV) farm, commissioned in April 2021, was officially inaugurated in a short ceremony on Monday morning on Ile de Romainville. ... The solar PV farm project ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.
