

It will be paired with the 88MW Capricornio solar PV plant in the Antofagasta region in the north, which sits within the Atacama desert region, often called the "sunniest place on earth". Engie said the BESS will provide security ...

Three utility scale battery energy storage projects collocated with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel Renovables are planning 200 ...

The Chilean arm of France-based multinational utility Engie has started construction on a 68MW/418MWh battery energy storage system (BESS) at an operational solar PV plant. Located in the northern region of Antofagasta - in a former diesel power plant operated by Engie - the BESS Tamaya project will have 152 containers installed.

3 ???&#0183; Grenergy, a Spanish independent power producer focused on the development of photovoltaic, wind, and energy storage projects, has announced the arrival, at the Chilean port of Iquique, of 105 BYD batteries which will complete the first phase of the Oasis de Atacama solar-plus-storage project.

3 ???&#0183; Grenergy, a Spanish independent power producer focused on the development of photovoltaic, wind, and energy storage projects, has announced the arrival, at the Chilean port ...

3 ???&#0183; Grenergy has announced the arrival of 600 MWh of BYD batteries at the Chilean port of Iquique, marking a key milestone in the first phase of the Oasis de Atacama solar-plus-storage project.

3 ???&#0183; Grenergy has announced the arrival of 600 MWh of BYD batteries at the Chilean port of Iquique, marking a key milestone in the first phase of the Oasis de Atacama solar-plus ...

Enel Chile has announced a significant achievement with the battery storage system (BESS) of its El Manzano solar power plant, marking the first energy synchronization of the project. The plant, located in the commune of Tiltil, injected 100% clean hybrid energy into the National Electric System (SEN).

Three utility scale battery energy storage projects collocated with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel Renovables are planning 200 MW/800 MWh ...

Three different developers have announced separate large-scale battery energy storage (BESS) projects co-located with solar farms in Chile. Enel Chile, the local subsidiary of the Italian energy company Enel, will deploy a 67 MW/134 MWh battery at ...

The Chilean arm of France-based multinational utility Engie has started construction on a 68MW/418MWh battery energy storage system (BESS) at an operational solar PV plant. Located in the northern region of Antofagasta ...

It will be paired with the 88MW Capricornio solar PV plant in the Antofagasta region in the north, which sits within the Atacama desert region, often called the "sunniest place on earth". Engie said the BESS will provide security and flexibility to the National Electricity System (SEN) of Chile once online in the first half of 2025.
