

Solar Slate Solutions is a solar mounting manufacturer and installer located in Billerica, Massachusetts, USA. We created the patented SlatePlate, train solar installation companies on how to install the SlatePlate, and even perform our own solar installations locally.

The patented Solar Slate Plate allows you to attach solar panels without compromising the beauty and integrity of your slate roof! The Solar Slate Plate was designed by slate roofing specialists, who know how to work with stone safely. Our trained specialists (NOT salespeople!) are here to answer your questions, ease your concerns and ready

Quick and simple solar installations using Solar Slate Plate. No cutting. No sealants. No leaks. Manufactured using high quality materials, with the polycarbonate plate's working temperature of -40 °C to 130 °C. With no need to cut any slates, health and safety risks are reduced. Cost saving due to reduced installation

Solar Slate Solutions introduces the groundbreaking SlatePlate System, a patented innovation that has transformed the way solar panels are installed on slate roofs. With nearly 5% of American homes possessing either slate or cedar-shingled roofs, a significant number of environmentally conscious individuals have been waiting for a viable solar ...
