

What is ProSolar Systems in solar energy?

ProSolar Systems is an award-winning solar energy company serving The U.S. Virgin Islands. We offer a variety of renewable energy products for every home, every business, and every budget.

What is rooftop solar for Islands?

Rooftop solar for islands Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance. We work with ultra-luxury resorts and small businesses alike - always aiming to provide great service.

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity - floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

What is swimsol solar powerplant at sea?

Swimsol provides a unique solution to achieve desired solar production capacity - floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea. Swimsol technology is already competitive in islands and tropical regions using diesel for power.

Where are solar-diesel hybrid systems made?

System components are pre-assembled by Swimsol in Austria. To ensure system quality and a hassle-free client experience - our team delivers & installs the systems on-site. Our solar-diesel hybrid integrates seamlessly into island grids.

Why is solarsea better than swimsol?

SolarSea produces 5-10% more energy due to natural cooling at sea. Swimsol technology is already competitive in islands and tropical regions using diesel for power. SolarSea platforms float above bare sandy seabed creating a habitat for marine life. The number of SolarSea platforms can be adjusted to your power demands.

**ISLAND SOLAR POWER** Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance.

Discover the innovative Canopy Power X Ocean Sun floating solar system solution for remote islands and island resorts to generate renewable electricity and to collect rainwater all at once. ...

We specialize in developing and implementing solar energy, energy efficiency, and EV charging solutions for communities that make electricity by burning fossil fuel. Enjoy better financial & ...

Logistics hub Ocean Point Terminals (OPT) will turn to BMR Energy to build a 10-MW solar project at the terminal in St. Croix, U.S. Virgin Islands. The facility will generate ...

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional ...

ProSolar Systems is the leading solar company in the Virgin Islands, providing cost-effective investments in energy efficiency and renewable energy since its 2007 launch in Florida; the company opened offices in the U.S. Virgin Islands in 2011.

ProSolar Caribbean is the premier Solar Energy company serving the U.S. Virgin Island, and we have been for over a decade. We offer a wide variety of renewable energy products and services. We can help you reduce energy costs, go completely off-grid, or both!

We specialize in developing and implementing solar energy, energy efficiency, and EV charging solutions for communities that make electricity by burning fossil fuel. Enjoy better financial & environmental performance for your business, your team, and the planet!

Honeywell announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. Virgin Islands.

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional installation, through performance monitoring and comprehensive warranties, our team ensures that your solar system is operating at peak efficiency throughout ...

With the growing intensity of storms in the Caribbean, resilient energy infrastructure now plays a crucial role in the Caribbean's transition to a reliable, clean power system. The Donoe solar farm in St. Thomas, U.S Virgin Islands was originally built in 2015 but sustained significant damage during the 2017 hurricane season.

Discover the innovative Canopy Power X Ocean Sun floating solar system solution for remote islands and island resorts to generate renewable electricity and to collect rainwater all at once. Island based businesses can reduce costs, overcome energy ...

Carib Sun Energy is your local full service residential & commercial solar provider. When you decide to switch to solar, we take care of every step; including engineering, permits, installation and ongoing monitoring

of your system performance. Solar Made Easy by CSE

Logistics hub Ocean Point Terminals (OPT) will turn to BMR Energy to build a 10-MW solar project at the terminal in St. Croix, U.S. Virgin Islands. The facility will generate and deliver power to OPT's marine logistics terminal and storage and blending complex, pursuant to a 20-year lease and operation and maintenance agreement.
