As a leading PV project developer and manufacturer of solar modules with over 40 GW deployed around the world since 2001. CANADIAN SOLAR INC. 6-75 Nominal Max. Power (Pmax) 365 W Opt. Operating Voltage (Vmp) 33.2 V Opt. Operating Current (Imp) Open Circuit Voltage (Voc) Short Circuit Current (Isc) Module Efficiency Operating Temperature Max.

Where can I install solar panels in Canada?

Our easy-to-install solar packages have reached homes across Canada, from Nova Scotia to Whitehorse and Vancouver Island. Explore our customized solar packages designed to meet your unique energy needs. Each package features high-quality, CSA-certified components, ensuring reliable performance for homes, cabins, and recreational vehicles.

Are Canada's Prairies a good source of solar energy?

Canada's Prairies not only the sunniest. But they also offer the greatest potential of solar harvest. Our Canadian prairies are therefore a major resource for harvesting solar energy. Sunshine is an abundant but long forgotten and underutilized natural resource. Learn more about how you can leverage the power of the sun to power your home today!

Can I get a rebate for installing solar?

No, the rebate incentives for installing solar will be provided by one, or several, of the provincial or federal governments and, in some cases, your local municipality. Ask your mySolar Advisor about which incentives your home is eligible for. Sometimes multiple incentives are available! Is mySolar working for the government/utility/power company?
