

Under the Multi-Tier Framework (MTF) of measuring energy access, solar home systems (SHS) are capable of providing Tier 1, 2, and 3 energy access, in line with typical consumption patterns of households in Sub-Saharan Africa. Specially-designed PV systems for commercial and institutional use can provide even higher level of access.

Solarma est une entreprise innovante spécialisée dans la fourniture de solutions solaires et électriques de haute qualité ; Madagascar. Nous travaillons avec des projets sur mesure mais ...

The Solar United Consortium is a joint programme led by the registered NGOs Money For Madagascar, Feedback Madagascar and SEED in partnership with the solar technicians at the Madagascar social enterprise Jiro-Ve. We are ...

Madagascar is one of the sunniest countries in the world with more than 3,000 hours of sunshine per year, so decentralised solar power supply to rural areas is not only easier but also cheaper. Atmosfair finances the construction and operation of decentralised solar power grids ('solar mini-grids') in the southwest of the island

to the grid, Madagascar has a large addressable market for solar solutions with a potential customer base of 2.5 to 5 million households for solar lamps and market-entry solar home systems. Consequently, there are a small number of social enterprises distributing solar home systems including Heri, Jiro-Ve, and

The Solar United Consortium is a joint programme led by the registered NGOs Money For Madagascar, Feedback Madagascar and SEED in partnership with the solar technicians at the Madagascar social enterprise Jiro-Ve. We are launching Light Libraries, testing solar cooking and developing solar-powered digital learning technologies and materials.

Innovative financing models, including pay-as-you-go systems, are making solar energy more accessible to a broader segment of the population. The government of Madagascar has also released a call for proposals for the construction of solar photovoltaic power facilities with a combined capacity of 210 MW.

Solarma est une entreprise innovante spécialisée dans la fourniture de solutions solaires et électriques de haute qualité ; Madagascar. Nous travaillons avec des projets sur mesure mais aussi avec des solutions dimensionnées comme des solutions anti-délestage.
