Solar shingles or tiles are made of solar cells that are commonly manufactured using semiconductor materials, such as monocrystalline silicon and copper-indium-gallium selenide. The cells are assembled in bands or strips to form the shingle or tile shape.

SunStyle by CertainTeed maximizes the potential of solar roofing from edge to edge, encompassing every angle and slope. This, coupled with premium photovoltaic cells, delivers higher solar efficiency in one integrated system that today's buildings demand.

The appeal of solar roof tiles lies primarily in their ability to produce green electricity while integrating aesthetically with the roof of a building. They offer a solution for homeowners who ...

It's the perfect blend of traditional roof tiles and cutting-edge solar technology. Whether you're retrofitting an older home or designing a new one, our solar tiles can be customized to meet your aesthetic and energy needs.

The appeal of solar roof tiles lies primarily in their ability to produce green electricity while integrating aesthetically with the roof of a building. They offer a solution for homeowners who wish to benefit from solar energy without installing large, traditional solar panels on their roofs.

SunStyle by CertainTeed maximizes the potential of solar roofing from edge to edge, encompassing every angle and slope. This, coupled with premium photovoltaic cells, delivers higher solar efficiency in one integrated system that ...

Solar tiles are available in several design options that mimic traditional slate stone tiles or ceramic tiles. It is an economical option for rehabilitation or projects that involve building from scratch.

It's the perfect blend of traditional roof tiles and cutting-edge solar technology. Whether you're retrofitting an older home or designing a new one, our solar tiles can be customized to meet ...
