

Who is solar light company?

germicidal applications worldwide! Solar Light Company,LLC,an ISO9001:2015 company,has been providing professionals with laboratory-grade solutions for the advancement of light sciences ever since we invented the world's first Solar Simulator in 1967.

What makes solar light company unique?

Solar Light Company runs their business in much the same way. They maintain innovation as the focal point of their corporate mission and strive to provide products and solutions that help their customers pioneer into the future. Their four core business units offer the greatest potential to serve their customers in the coming decade. They include:

Why choose Solar Light Company?

At Solar Light Company,LLC,our customers use our highly engineered products to find creative solutions to complex problems and stay ahead of the technological curve. We are motivated and inspired by this,and we run our business in the same way.

According to the Marianas Variety report, Taiwan plans to help Tuvalu replace its fluorescent street lights with environmentally friendly LED fixtures as part of the Lamp of Taiwan project. Launched after Ma took office in May 2008, the Lamp of Taiwan project uses advanced solar-based light-emitting diode technology to harness sunlight.

Solar Light's affiliate company, Optronic Labs, offers a low-cost, flexible, programmable, compact radiometer-photometer. If you currently use our PMA instruments then we highly recommend you look into the OL 731 USB Smart Detector. Learn more:

The 300W 16S-300-004 Materials Testing Solar Simulator produces a 2.25" (5.7 cm) Air Mass 1.5 output beam for full spectrum sunlight - ideal for testing the damaging effects of sunlight on materials such as plastics, paints, coatings, inks, dyes, vinyls and fabrics.

SOLAR LIGHT COMPANY warrants that the equipment has been carefully tested, inspected and left the Factory in proper working condition, free of visible defects. SOLAR LIGHT COMPANY warrants the equipment to be free from defects in material and workmanship, under normal use and operation, for a period of one (1) year after the date of initial ...
