In his opening remarks during the 3 rd Edition of the EU Green Power Transformation Forum, the new EU Ambassador Designate to the Kingdom of Eswatini, Karsten Mecklenburg, said: "We believe that it is our collective duty to make the green power transition in Eswatini a process that contributes to the energy security and sovereignty of the ...

The European Union (EU) is committed to supporting Eswating in its transformation towards renewable energy. EU Ambassador-designate to Eswatini, Karsten Mecklenburg, said this on 17 September 2024 during the 3rd annual EU Green Power Transformation Forum held at Ezulwini.

On 08 April 2024, the Ministry of Economic Planning and Development and the European Union in Eswatini organised an Information Meeting on the Call for Proposals "Catalyser for Energy Transition in Eswatini 2024" for all the organisations interested in applying. Following the requests for clarification received during the meeting, we are sharing the replies:

Participants had the opportunity to network, exchange ideas, and explore innovative solutions that can propel Eswatini towards its ambitious renewable energy goals. The private sector already has multi billion projects in the pipeline some of which may become a reality in the coming year.

This reaffirmation was made by the Director of Energy in the Ministry of Natural Resources and Energy, Thabile Nkosi, during the 3rd EU Green Power Transformation Forum 2024 held at Happy Valley last week. ... added that the Eswatini Electricity Company (EEC) is working on many renewable energy projects, and the

regulator, the Eswatini Energy ...

The Ministry of Economic Planning and Development in Eswatini in collaboration with the European Union (EU), invites proposals to boost the sustainable and inclusive development of the Eswatini key value chains via renewable energy and energy efficiency investments by providing tailor made support

Young people have a crucial role to play in societies around the world including Eswatini. That is why in the next six years the EU's cooperation with Eswatini will focus on empowering the youth and the most disadvantaged groups in grassroots communities in order to help them with skills development for employment creation and entrepreneurship.

In 2022, Eswatini's electricity consumption profile was dominated by net imports, which accounted for more than 60% of the total electricity supply. Among the domestic generation, low-carbon energy sources played a significant role, making up over a third of the electricity production. Within the low-carbon category, hydropower contributed just over 20% and biofuels accounted ...

The Ministry of Economic Planning and Development and the European Union in Eswatini will organise an Information Meeting on the Call for Proposals "Catalyser for Energy Transition in Eswatini 2024" for all the organisations interested in applying.

GET vest Eswatini worked in collaboration with several partners, among them the European programme GET.transform. GET.transform provided technical assistance to public partners across energy sector governance, planning and regulation for a clean energy transformation. The collaboration with the programme thus ensured a holistic approach covering both the private ...
